

Statement of No Documentation of Income

Child's Name: _____

D.O.B: _____

Purpose: To be used when a family **does not** have documentation of income

Section 3 (A.2) Families must submit sufficient income documentation **at the time** of the application process in order for the Contracting Agency to verify the child's eligibility. Income calculated must be based on documentation that accurately reflects the family's yearly earnings for the applicable year or their **current** situation at the time of application.

Guidance: Questions to consider as it relates to your family's income situation:

Can you get a written statement from your employer?

If so, make sure the statement:

- Reflects the most recent pay periods
- Includes the amount **and** frequency of pay (*including overtime*)
- Is signed by the employer
- Is documented on letterhead, if available

Are you self-employed?

- If so, did you file taxes? If yes, attach your most recent tax return or 1099. If no, record how much is earned for all 12 months in the chart below.

Did you have any receipts?

- If so, use receipts you have and calculate income for the correlating months and document in the chart below.

Do you pay other employees?

- If so, attach your 1099 or receipts of income prior to paying expenses (including employee pay). You may have documentation of revenue and expenses.

Complete the following section if your family meets one of the following criteria:

- Your family has no documentation due to homelessness.
- Your family is self-employed/contractually employed and financial records have either been lost/destroyed or not kept.
- Your family is unable to produce sufficient income documentation.
